

A Message from Hon Michael Wright MP

As Minister for Recreation and Sport, I'm committed to ensuring South Australians have every opportunity to lead healthy, active lifestyles. The State Government provides significant funding to sport and recreation in South Australia and was proud to support the First Swing Golf Program, providing \$5000 to subsidise lessons for the program's participants.

From the establishment of the First Swing Golf Program, which provided an introduction to golf for people with a disability, South Australian Amputee Golf Association President, Gary Hart has taken on the challenge of organising this inaugural South Australian Amputee Golf Open.

This tournament should provide participants with a wonderful sense of achievement, as well as a great opportunity to be active.

I congratulate all those involved in the inaugural South Australian Amputee Golf Open and look forward to this event achieving continued success in the coming years.

Hon Michael Wright MP
Minister for Recreation, Sport and Racing
